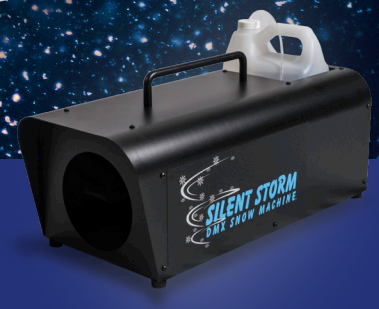
Let it Snow, Let it Snow, Let it Snow.

ultratec special effects®



Silent Storm Snow Machine

It takes more than a well-built snow machine to create a realistic looking snowfall. The right snow fluid is essential to setting the perfect scene and achieving optimal performance from your snow machine. Using Ultratec's line of premium snow fluids will ensure you create the desired snow effect, on queue for any event.

True North Snow Fluid is our most popular. Indoors or outdoors, it creates fast-falling snow, perfect for any background scene. Our **Ultimate Extra Dry Snow Fluid** is great for indoor use. With its medium fall rate, the stage will dry quickly ensuring entertainers can continue with their performance. Our **Northern Snow Fluid** creates our fluffiest snow flakes. Ideal outdoors for large volumes, it works well with our **Turbo Fan with Snow Machine.**

Our snow machines have a five-year warranty against manufacturers' provided Ultratec fluids are used.
