

The Battle Fogger Will Make Your Team Battle Ready

For firefighters around the world, fire training is essential to establish operational readiness. The Battle Fogger ensures they can perform when it counts the most. It is used for creating safe but realistic scenarios for executing all your training exercises.

The Battle Fogger's heavy-duty powder coated chassis combined with electromechanical over temperature protection make it tough and durable. It features continuous fog output from our award-winning Rapid Change Technology Heat Exchanger. The one-gallon integrated fluid reservoir and full function remote control with timer allow you to create a range water-based smoke effects.

The Battle Fogger is a must have for fire departments and firefighter training facilities to safely simulate smoke for fire battle and rescue scenarios.
