

# The World's Most Durable and Dependable Low Fog Machine.

When the audience is in place and the lighting is just right, you need your equipment to perform at the highest standards. That's why we've built the Eclipse Low Fog Effects Generator, the world's most durable and dependable low fog machine.

The Eclipse features the most rugged casing we've ever developed, making it ideal for long road trips to distant and exotic shooting locations.

A larger, more powerful 600cfm variable speed fan allows the Eclipse to deliver thick, billowing fog capable of transforming scene's ambiance in just moments. If you're looking to set the right mood for your next production, you simply must have this incredible device.
