

SAFETY DATA SHEET

	1.1	Identification		
Product identifier	Telemax			
Other means of identification	Not available.			
Recommended use	Theatrical Fog			
Recommended restrictions	None known.			
Manufacturer/Importer/Supplier	/Distributor information			
Manufacturer				
Company name Address	Ultratec Special Effects 1960 Blue Heron Drive London ON N6H 5L9 Canada			
Telephone	Local:	1-519-659-7972		
Website E-mail	Toll Free: www.ultratecfx.com customerservice@ultrate			
Emergency phone number	ChemTel:	1-800-255-3924		
Supplier	See above.			
	2. Haza	ard identification		
Physical hazards	Not classified.			
Health hazards	Not classified.			
Environmental hazards	Not classified.	Not classified.		
WHMIS 2015 defined hazards	Not classified			
Label elements				
Hazard symbol	None.			
Signal word	None.			
Hazard statement	The mixture does not meet the criteria for classification.			
Precautionary statement				
Prevention	Observe good industrial l	hygiene practices.		
Response	Wash hands after handlin	וg.		
Storage	Store away from incompa	atible materials.		
Disposal	Dispose of waste and res	sidues in accordance with local authority requirements.		
WHMIS 2015: Health Hazard(s) not otherwise classified (HHNOC)	None known			
WHMIS 2015: Physical Hazard(s) not otherwise classified (PHNOC)	None known			
Hazard(s) not otherwise classified (HNOC)	None known.			
Supplemental information	Not applicable.			
	3 Composition/	Information on ingredients		

Mixture

special effects inc.

Chemical name	Common name and synonyms	CAS number	%
Propylene Glycol, USP		57-55-6	15 - 40
Triethylene glycol		112-27-6	15 - 40

US GHS: The exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200. *CANADA GHS: The exact percentage (concentration) of composition has been withheld as a trade trade secret.

	4. First-aid measures		
Inhalation	If symptoms develop move victim to fresh air. If symptoms persist, obtain medical attention.		
Skin contact	Flush with cool water. Wash with soap and water. Obtain medical attention if irritation develops of persists.		
Eye contact	Immediately flush with cool water. Remove contact lenses, if applicable, and continue flushing for 15 minutes. Obtain medical attention if irritation develops or persists.		
Ingestion	Do not induce vomiting. Rinse mouth with water, then drink one or two glasses of water. Obtain medical attention. Never give anything by mouth if victim is unconscious or is convulsing.		
Most important symptoms/effects, acute and delayed	Direct contact with eyes may cause temporary irritation.		
Indication of immediate medical attention and special treatment needed	Treat symptomatically.		
General information	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Wear rubber gloves and safety glasses with side shields. Keep out of reach of children.		
	5. Fire-fighting measures		
Suitable extinguishing media	Alcohol foam. Carbon dioxide. Water Fog. Dry chemical.		
Unsuitable extinguishing media	Not available.		
Specific hazards arising from the chemical	Firefighters should wear a self-contained breathing apparatus.		
Special protective equipment and precautions for firefighters	Firefighters should wear full protective clothing including self-contained breathing apparatus.		
Fire-fighting equipment/instructions	Cool containers with flooding quantities of water until well after fire is out.		
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.		
General fire hazards	No unusual fire or explosion hazards noted.		
Hazardous combustion products	May include and are not limited to: Oxides of carbon.		
	6. Accidental release measures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep out of low areas. Keep people away from and upwind o spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. For personal protection, see section 8 of the SDS.		
Methods and materials for containment and cleaning up	Large Spills: Stop leak if you can do so without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Use water spray to reduce vapors or divert vapor cloud drift. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.		
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.		
Environmental precautions	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS Avoid discharge into drains, water courses or onto the ground.		
	7. Handling and storage		
Precautions for safe handling	Avoid prolonged exposure. Use good industrial hygiene practices in handling this material. When using do not eat or drink. Wash hands before breaks and immediately after handling the product.		
Conditions for safe storage, including any incompatibilities	Store away from incompatible materials (see Section 10 of the SDS). Keep out of reach of children.		

8. Exposure controls/Personal protection
--

Components	ontrol of Exposure to Biological or Che Type	Value	Form		
1,2-Propanediol (CAS 57-55-6)	TWA	155 mg/m3	Vapor and aerosol.		
		10 mg/m3	Aerosol.		
		50 ppm	Vapor and aerosol.		
US. Workplace Environme	ental Exposure Level (WEEL) Guides				
Components	Туре	Value	Form		
1,2-Propanediol (CAS 57-55-6)	TWA	10 mg/m3	Aerosol.		
Triethylene glycol (CAS 112-27-6)	TWA	10 mg/m3			
ological limit values	No biological exposure limits noted for the ingredient(s).				
posure guidelines	Chemicals listed in section 3 that are not listed here do not have established limit values for ACGIH or OSHA PEL.				
propriate engineering ntrols	General ventilation normally adequate.				
lividual protection measure	s, such as personal protective equipme	nt			
Eye/face protection	Safety glasses recommended.				
Skin protection					
Hand protection	If there is constant skin contact, rubbe	gloves are recommended.			
Other	As required by employer code.				
Respiratory protection	Not normally required if good ventilation is maintained. Where exposure guideline levels may be exceeded, use an approved NIOSH respirator.				
Thermal hazards	Not available.				
neral hygiene	Wash hands before breaks and immediately after handling the product. Handle in accordance w good industrial hygiene and safety practice. When using do not eat or drink.				

9.	Ph	/sical	and	chemica	properties

	, , , , , , , , , ,
Appearance	Clear
Physical state	Liquid.
Form	Liquid
Color	Colorless
Odor	no odour
Odor threshold	Not available.
рН	Neutral
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Pour point	Not available.
Specific gravity	Not available.
Partition coefficient (n-octanol/water)	Not available.
Flash point	> 249.8 °F (> 121.0 °C) Tag Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.

Vapor density	> 1 (Air = 1)		
Relative density	1.05		
Solubility(ies)	Complete		
Auto-ignition temperature	Not available.		
Decomposition temperature	Not available.		
Viscosity	Not available.		
	10. Stability and reactivity		
Reactivity	May react with incompatible materials.		
Possibility of hazardous reactions	Hazardous polymerization does not occur.		
Chemical stability	Stable.		
Conditions to avoid	Avoid temperatures exceeding the flash point. Do not	mix with other chemicals.	
Incompatible materials	Acids. Oxidizers.		
Hazardous decomposition products	May include and are not limited to: Oxides of carbon.		
	11. Toxicological information		
Routes of exposure	Eye, Skin contact, Inhalation, Ingestion.		
Information on likely routes of ex	xposure		
Ingestion	May cause stomach distress, nausea or vomiting.		
Inhalation	No adverse effects due to inhalation are expected.		
Skin contact	No adverse effects due to skin contact are expected.		
	No adverse effects due to eye contact are expected.		
Eye contact			
Eye contact Symptoms related to the physical, chemical and toxicological characteristics	There are no hazards associated with this product in	normal use.

Conjunctival reddening	Not available.
value	
Conjunctival oedema value	Not available.
Recover days	Not available.
Respiratory or skin sensitization	
Respiratory sensitization	Not available.
Skin sensitization	This product is not expected to cause skin sensitization.
Mutagenicity	Non-hazardous by WHMIS/OSHA criteria.
Carcinogenicity	Non-hazardous by WHMIS/OSHA criteria.
OSHA Specifically Regulated	d Substances (29 CFR 1910.1001-1052)
Not listed.	
Reproductive toxicity	Non-hazardous by WHMIS/OSHA criteria.
Teratogenicity	Non-hazardous by WHMIS/OSHA criteria.
Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not classified.
Chronic effects	Non-hazardous by WHMIS/OSHA criteria.

12. Ecological information

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

	, ,	5 1 1	5 5	
Ecotoxicological data Components		Species	Test Results	
1,2-Propanediol (CAS 57-55-6)				
Crustacea	EC50	Daphnia	10000 mg/L, 48 Hours

Fish	LC50	Bluegill (Lepomis macrochirus)	> 10000 mg/L, 96 hours	
Persistence and degradability	No data is	available on the degradability of this product.		
Bioaccumulative potential	No data av	No data available.		
Mobility in soil	No data av	No data available.		
Mobility in general	Not available.			
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.			
		13. Disposal considerations		
Disposal instructions	Review federal, state/provincial, and local government requirements prior to disposal. Collect and reclaim or dispose in sealed containers at licensed waste disposal site.			
Local disposal regulations	Dispose in accordance with all applicable regulations.			
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.			
Waste from residues / unused products	product res	in accordance with local regulations. Empty c sidues. This material and its container must be astructions).		
• • • • • • •	– ,			

Contaminated packaging Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

Ecotoxicity

14. Transport information

Transport of Dangerous Goods (TDG) Proof of Classification		od: Classified as per Part 2, Sections 2.1 – 2.8 of the Transportation of Regulations. If applicable, the technical name and the classification of the below.
U.S. Department of Transportation		
Transportation of Dangerous Generation Not regulated as dangerous g	oods (TDG - Canada)
	15.	Regulatory information
Canadian federal regulations		een classified in accordance with the hazard criteria of the HPR and the SDS ormation required by the HPR.
Export Control List (CEPA	1999, Schedule 3)	
Not listed. Greenhouse Gases		
Not listed.		
Precursor Control Regulation Not regulated.	ons	
WHMIS 2015 Exemptions	Not applicable	
US federal regulations	This product is not	known to be a "Hazardous Chemical" as defined by the OSHA Hazard andard, 29 CFR 1910.1200.
